Objective

Motivated and results-driven junior developer with over 3 years of experience as a full-stack developer. Passionate about coding, problem-solving, and continuously learning new technologies to stay at the forefront of industry trends. Eager to contribute to a dynamic and innovative team, leveraging expertise in both front-end and back-end development to drive impactful solutions and deliver high-quality results.

Experience

Software Engineering Consultant I, ITJ, Tijuana | December 2022 - April 2024

- Developed web applications using VueJS.
- Proficient in working with both SQL and noSQL databases.
- Successfully consolidated multiple SQL databases into a MongoDB, managing versions effectively.
- Implemented custom Multi-Factor Authentication (MFA) functionality for web applications using Auth0 and JavaScript.
- Created comprehensive documentation and executed unit tests for various components.
- Utilized Swagger for managing endpoints and PgAdmin for local information viewing and modification.
- Participated in daily standups, weekly sprint plannings, bi-weekly sprint demos, and monthly informative sessions with the team.
- I have experience working in cybersecurity, utilizing CrowdStrike and virtual machines for a renowned medical-oriented company.

Jr Full Stack Developer, IT Nora, Mexicali | June 2021 - December 2022

- Developed applications with ReactJS and VueJS (Quasar library) in the frontend and MongoDB and Firebase in the backend.
- Utilized no-code builders such as FlutterFlow and Adalo for application development.
- Conducted bug fixes, application updates, and minor preventative maintenance on React Native applications.
- Managed and created databases using Firebase and MongoDB.
- Collaborated with different teams throughout the development phases.

Intern Full Stack Developer, OTH International, Mexicali | February 2021 - June 2021

- Planned website development, converting mockups into functional web solutions using HTML, JavaScript, AJAX, and JSON coding.
- Provided front-end website development using WordPress, Hubspot, and other editing software.
- Researched, tested, and implemented various client feature requests, delivering internal content management systems and content delivery applications.
- Updated knowledge of the latest industry trends in web development.
- Created a new e-commerce platform with Squarespace for the launch of the OTH International website.

Intern Full Stack Developer, Certuit, Mexicali | September 2020 - December 2020

- Conducted front-end website development using ReactJS and other editing software.
- Coded websites using HTML, CSS, JavaScript, and jQuery.
- Used critical thinking to solve problems and make decisions.
- Managed stock into the inventory management system.
- Planned and engineered RESTful web services to manipulate dynamic datasets.
